

The benefits of Hempcrete

Alex Sparrow
Director, UK Hempcrete

SUSTAINABILITY

Renewable

Recyclable

Sequesters CO₂

Low-tech

Better-than-Zero
-Carbon material

Very low
energy
in use

Accessible

Chemical-free

Naturally pest, rot and fire-resistant

Passively regulates internal humidity

Helps to reduce fuel poverty

Simple detailing

Vapour-open material

Ensures longevity of building fabric

Retrofit of solid wall & lime-built properties

Historic buildings

Benefits of hempcrete

HEALTHY LIVING

"BREATHABILITY"

Industrial hemp:

- Sustainable
- Annually renewable
- Local, global resource
- CO₂ absorption
- Supporting biodiversity
- Processing facilities improving

Hemp looks like this.

soon million worth of Imported Industrial hemp contributes to U.S. hemp products, like foods, fibers, manufactured parts, infrastructure materials and more. In 3 months, 1 acre of hemp can produce 4 tons of hemp seed, earning farmers \$1,300 per acre & oll processors up to \$9,000 for 60, 5 gal buckets of oll. TNHemp.org

Hemp looks like this.

than.3% THC, over 75 U.S. manufacturers make hemp products, like clothing, t-shirts, jeans and more. Hemp is largely imported from Canada & China, but we could make it legal to grow it here. Learn more at TNHemp.org #TN4Hemp

Hemp looks like this.

Hemp looks

I am hemp. Less than .3 % THC, over 75 U.S. manufacturers make hemp products. Hemp products.
Hemp seeds are a
complete super-food
in the growing health
food market. We can
eat the seed but not grow it. Help free this market for U.S. Farmers. Bring the hemp market home We need your help! #votehemp

Hemp looks like this.

I am hemp. Less than ,3% THC, over 75 U.S. manufacturers make hemp products, like drought resistant biofuel crops with 97% efficiency compared to other biofuels. The U.S. gov't mandates production of production of biofuel. So why not grow & employ hemp for the nation? Learn more at TNHemp.org

Hemp looks like this.

I am hemp. Less than 3 % THC, over 75 U.S. manufacturers make hemp products. This South African hempcrete house is fire proof, mold proof and offers the ultimate healthy living, 85% of this home's furniture & cabinetry is also made of hemp. This is the future. tnhemp.org #votehemp

like this. I am hemp. Less than .3 % THC, over 75 U.S. manufacturers make manufacturers make hemp products. This handbag is partially made of hemp. Hemp is durable, good-looking and creates responsible products. Chemicals can disrupt our endocrine systems & pollute our environment. Hemp is a safer option.

is a safer option. tnhemp.org #votehemp

Hemp looks like this.

I am hemp. Less than 3% THC, over 75 U.S. manufacturers make hemp products, like building materials, including composite board & hempcrete. Hemp is largely imported from Canada & China, but gov't could make it legal to grow here. Learn more a TNHemp.org
