

# GEOSENTINEL Washbox

Finalist

Product category

The world's most productive **Zero Liquid Discharge (ZLD)** tool wash station

Pallet version for large construction

Trolley version for small construction and fitout

The Washbox closed loop, mobile wash station is suitable for all fitout trades and designed to tackle water waste head on. Operating independently from water and sewer systems, Washbox conserves water, reducing consumption by over 98%.

Washbox also prevents the release of harmful pollutants, safeguarding aquatic ecosystems, eliminating the harmful discharge of pollutants from trades' activities.

## Key facts

- Product name:** Washbox
- Manufacturer name:** Geosentinel
- Manufacture location:** Australia
- Product type:** Closed loop all trades wash station
- Application:** Whilst on site
- Other:** Washbox is hired by the contractor

## Highlights

- Eliminates the reliance on single-use items. In the construction industry, temporary plumbing installations often involve the continuous use of single-use drums.
- Reduces water consumption of on site trades washing activity by over 98%.
- This purpose built system has been used on over 400 successful projects worldwide.
- The Carbon footprint of Washbox was found to be 93% lower than that of traditional single use installations across average projects.
