

Biodiversity and Product Procurement

A person is walking away from the camera through a dense forest. The trees are tall and thin, with some green foliage on the right side. The atmosphere is misty or foggy, creating a soft, ethereal light. The person is wearing a dark jacket and is positioned in the lower center of the frame.

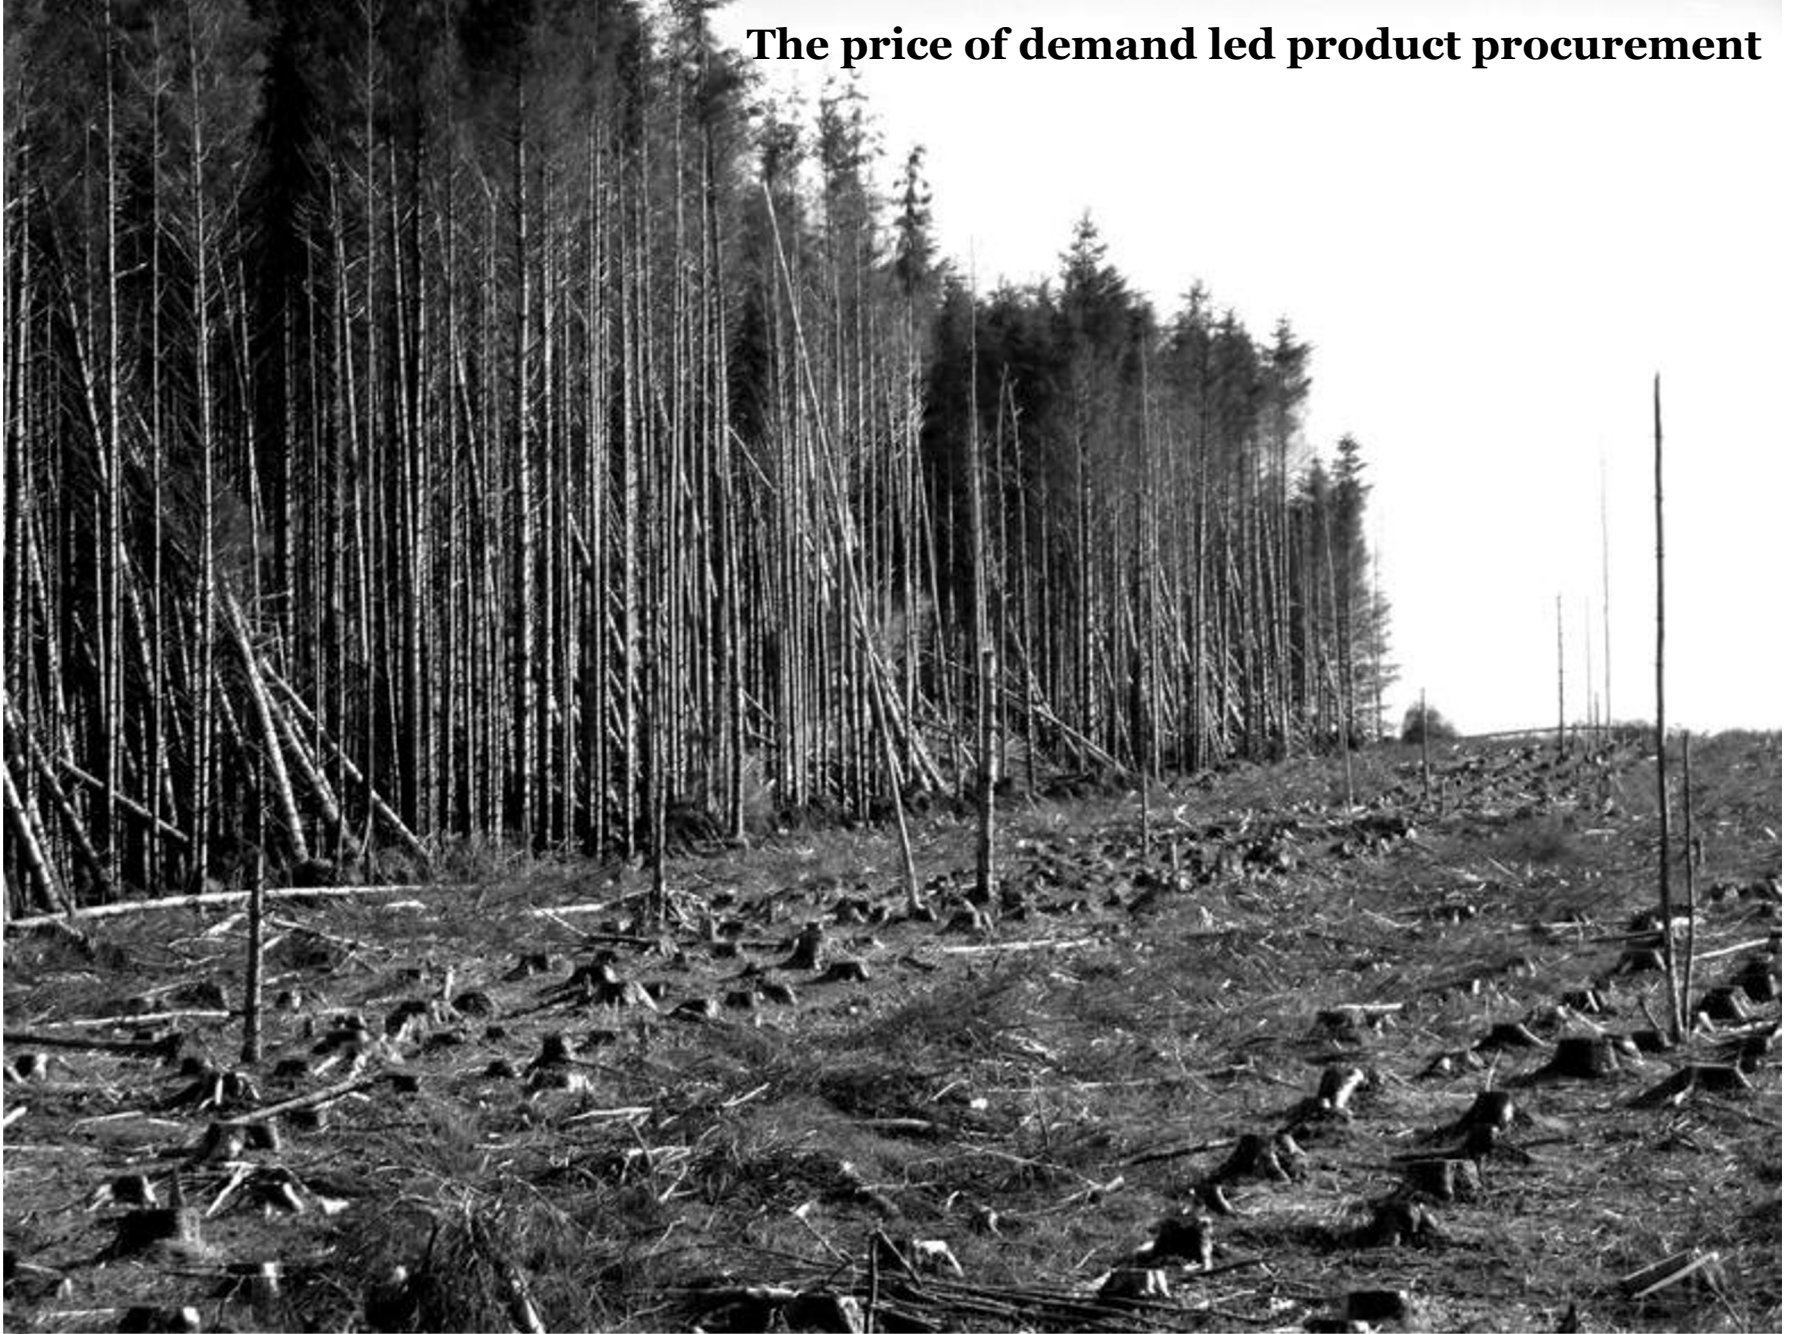

Looking beyond the usual solutions to strengthen our connection with trees

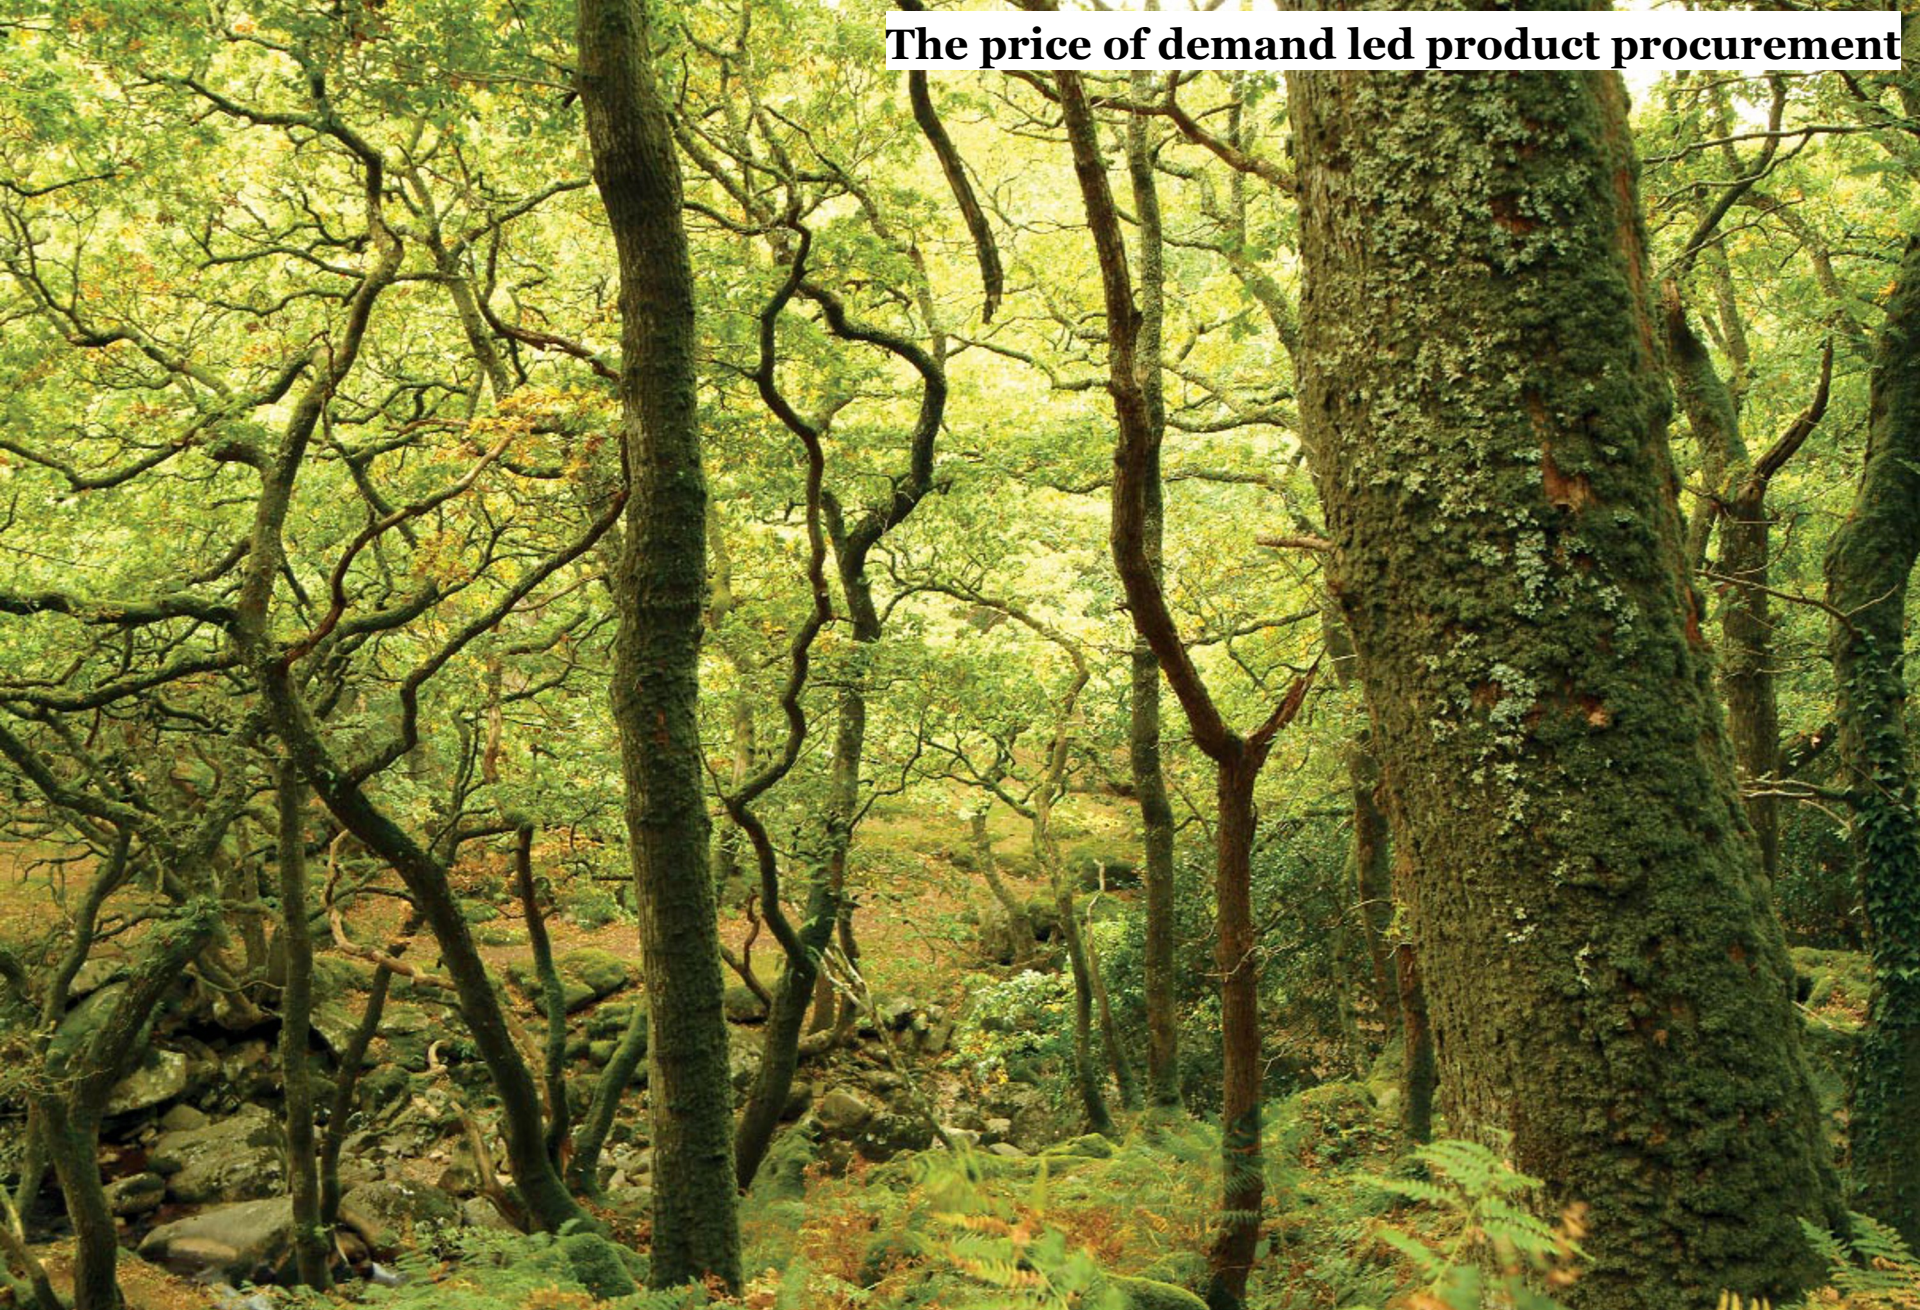

We work with people that want to use more timber but in a more considered way and with people who want to grow trees for the benefit of the ecosystem, society, and beyond.
