**Qflow**

## Decarbonising Construction

Brittany Harris  
CEO Qualis Flow

The **construction industry**  
generates **62% of the UK's waste**  
and 32% of all waste sent to landfill

Decarbonise Construction *with* **Qflow**

Automatically audit **Material  
& Waste Compliance** to  
prevent re-work and waste

Automate the capturing of  
**scope 3 carbon emissions**  
without all the paper chasing

Use data to accurately  
**verify as-built whole  
life carbon data**

## ASBP Pillars

Resource Efficiency

Whole Life Carbon

Ethics & Transparency

# Qflow

Improves Waste Management

Targets embodied carbon

Facilitates supply chain accountability

# Our Impact

- 2.5 million tonnes of waste tracked
- Over 300'000 materials and waste transfers tracked
- 9.7 million kg of CO<sub>2</sub><sub>e</sub> avoided
- Operating on 150 live construction sites right now
- Expanding internationally: UK, Australia and USA

# Why vote **Qflow**?

- Industry & problem first solution built by a passionate team
- Easy to use for all levels of tech literacy
- Delivers impact and savings in real-time
- Driving industry thought leadership - We produced the UK's first ever construction industry **Annual Waste Report** in 2023
- Lays the **foundations** for a more sustainable future

**Your voice matters.** Thank you for giving us the opportunity to present Qflow to you.
